Tipping Point For The Discipline Of Behavioural Finance

Was October 10, 2002, which was the day that Daniel Kahneman won the Nobel Prize in Economics. This event marked a significant moment in the history of behavioural finance, as it recognized the contributions of psychologists to the understanding of financial markets. The text discusses the overview of behavioural finance, its introduction, and its impact on practitioners and markets. It highlights that behavioural finance is of interest because it helps explain why and how markets might be inefficient. The text is organized into sections: 13 The Structure of Behavioural Economics and Finance, 14 A Note on Mathematics, 16 Further Reading, 16 Some Introductions to Behavioural Economics, 16 Behavioural Game Theory/classical Game Theory, 16 Experimental Economics, and 17 Experimental Software. The text concludes with the date '20 Feb 1st, 2024'.
